

WE'RE WITH YOU FOR THE LONG HAUL

We know these are challenging times, and your truck should be the least of your worries. International Truck is here and committed to helping any way we can.

Introducing International Cares, two special offers designed to help you run your business with minimum impact to your immediate bottom line.

If you're in the market for a new truck, there may never be a better time than now. For a limited time, International Truck and Navistar Capital, a BMO Financial Group Program, have partnered to **offer six months no payments for well-qualified buyers of eligible trucks*** – allowing you to make the right decisions for your business without impacting your immediate bottom line. Call your International Truck dealer for details.

International® 360 is an ideal way to track and maintain the health of your fleet online. With it, you can see an up-to-date status of vehicles in service, approve estimates, communicate directly with your service team, and much more. **We are offering complimentary access to International® 360 and IC Bus® 360 now through October 1** to help customers remotely manage their business effectively and safely during these uncertain times. Call 877-465-2033 or email support@internationaltrucks360.com to enroll today!

Repair Link is your 24/7 online connection to ordering original equipment and aftermarket parts with ease. You can increase order accuracy with parts specific information, technical diagrams, VIN-based look-up feature, real-time pricing and availability. Register and start saving today at <https://repairlinkshop.com/Register/Register>

If your fleet uses telematics, connect your fleet with OnCommand® Connection at no extra cost!** OCC lets customers manage their entire all-makes fleet through one dashboard, describes the nature of fault code events, ranks them based on severity, and provides fault code action plans with recommended parts and service steps. Get started at OnCommandConnection.com and click “enroll.”

*Additional terms and conditions apply, see your participating International Truck dealer for the complete details of the offer or visit www.internationaltrucks.com/longhaul

**Some third party telematics providers require a surcharge to enable fleet access to OnCommand Connection
